Submitted to His Highness.

A revised estimate amounting to Rs 82,858 (since reduced to Rs 81,274 after check) was sanctioned by His Highness on 20th February 1925 subject to the scrutiny of an Expert Committee consisting of the Public Works Secretary and an outside Expert

(2) The Scheme which has been scrutinised by the Public Works Secretary, is however a simple gravitation one, and on later consideration, it seemed unnecessary to spend Rs 1,000 (which is the amount required by an outside Expert who was addressed as to the terms for examining it) for outside scrutiny The matter was therefore again discussed in Council and the following is the opinion of the Council -

"The revised estimate for Rs 81,274 for the Kadur Water Supply may be sanctioned

In view of the fact that it is a simple gravitation Scheme, it is not necessary to consult an outside Expert as directed in Government Order dated the 6th March 1925 "

(3) Gracious final sanction of His Highness is solicited to the estimate submitted

With reference to your No 12384 dated 1-5-1926, forwarding for information and guidance a copy of Local and Legislative Secretary's letter No L 6123/M1 100-25-8 dated 23-3-1926 in the matter of utilising during the year the full amount of Rs 25,000 placed by the Municipal Council and the Government grant-in-aid of Rs 15,000/- for water supply to Kadur town with a view to obviate the necessity of providing so large a sum as Rs 50,000/- under the Government grant-in-aid for the next year, etc , I have the honour to state that as sanction to the project with instructions to put it in hand was received only in the month of February 1926 the sum of Rs 40,000 referred to above is not possible to be spent during the year If however the supply of materials indented for in this office No 1 of 20-4-1926 is arranged by the Stores Purchase Committee to be made within the year, which is unlikely in view of the period of not even two months at disposal, there will be no difficulty in an outlay of Rs 40,000/- being booked this year alone

The work outlay on the work will not be more than Rs 2,000 to Rs 3,000 as orders to the contractor selected in your letter No 11887 dated 17-4-1926 to start the work are issued only this week

Sir,

I have the honor to forward a copy of letter No. 457 dated the 24th September 1926, received from the Executive Engineer, Special Water Supply Construction Division, Bangalore, stating that the already sanctioned Estimate is insufficient to provide for the additional number of taps required for the Kadur Town, and to state that at a special meeting of the Kadur Municipal Council held on the 25th idem, it has been -- resolved that -

1 Extra taps are absolutely essential if the town is to be adequately supplied with water.

2 the cost thereof viz, Rs 4,000/- as estimated by the Executive Engineer, may be kindly borne by Government as the - Municipal Council are too poor to bear it, their resources having been nearly exhausted already, and

3. the Government may also consider and pass favourable orders on the prayer already made for waiving the Establishment - Tools, and Plants charges amounting to Rs 7,570/-

2 - It is a fact that the Municipality has already paid its heavy contribution, and thus has practically exhausted all its resources having very little or no money to meet any unexpected or urgent demands.

3 Under these circumstances, I strongly recommend that Government may be pleased to order the additional number of taps required, to -

provided at the cost of Government.

I have the honour to be,

Sir,

Letter No 457/Encls 3 dated Bangalore, 24th September 1926 from the Executive Engineer, Spl Water Supply Construction Division, to the Deputy Commissioner, Kadur District -

---

Adverting to your Memo No C 1259/25-26 dated 26-6-1926, which is herewith returned with the enclosures, I have the ho to inform you that the cost of additional taps proposed and resolved by the Municipal Council to be provided at several pl of the Kadur town, will amount to Rs 4,000/- at an average rate Rs 200/- per each fountain as since estimated after collecting details at the proposed sites

As there is no provision in the estimate contemplated by t Municipal Council and sanctioned by the Government for these additional taps, this work cannot be executed and in excess of Rs 4,000/- incurred

The Water Supply Scheme, which is now put in hand, will be proceeded with and sanctioned items worked out If any appreciable savings are ascertained at the completion of the scheme, the question of utilising the savings for providing additional taps will then be taken up for consideration But if the work is closed with no savings the only alternative then left will be for the Municipality to take up the question to provide them from its funds as and when convenient, after the works are handed over them

Sir,

With reference to your letter No. L. 3096/M1. dated 29th November 1927 in regard to the Kadur Town Water Supply, I have the honour to state that at a Special Meeting of the Council held on the 2nd November 1927, it has been resolved that the loan intended to be applied for from Government might be increased to Rs. 10,000/- repayable in 20 years at the rate of Rs. 500 a year with interest accrued thereon. The details of the loan required are explained as follows :-

2. Out of a total cost of Rs. 81,274/- sanctioned for the works, the Municipality has to bear Rs. 40,637/- being half the cost. To this should be added another Municipal Quota of Rs. 2,045/- being half the cost of an additional estimate prepared by Mr. Marker for putting up new mains and taps in the Kadur Town. Thus the total amount the Municipality has to meet would come to Rs. 42,682/-.

3. Out of this the Municipality has already adjusted Rs. 25,000/- withdrawing the amount kept in the Savings Bank for the purpose. Next, the Council proposes to pay Rs. 5,000/- out of the closing balance which remained at its credit on the 30th June 1927 and adjust another sum of Rs. 3,000/- being the estimated cost of pipes and other materials belonging to the Municipality, given over to the Water Works as per terms. Thus, it will [illegible] that a total sum of Rs. 33,000/- (25,000/- 5,000/- 3,000/-) will have

have been adjusted out of Rs 42,682/- and then for the balance of Rs 9,682/- or Rs 10,000/- in round figure, the Municipality wants to raise a loan from Government

4 After the works are completed, the Municipality has to incur the following maintenance charges

One fitter on Rs 25/- per mensem	Rs 300/-
One watchman on 10/- "	120/-
Contingencies	280/-
	Total:- 700/-

5 Thus the Municipality has to adjust in all every year Rs 1,450/- explained below :-

Rs 500/-	Repayment of Loan by instalment
250/-	Interest on the Loan,
700/-	Maintenance charges,
Rs 1450/-	

To meet this sum of Rs 1,450/- the Council expects to get :-

Rs 600/-	by levy of water tax @ 0-8-0 per rupee
300/-	income from house connections
600/-	by levy of taxes on piece goods and oils and ghee @ as were in vogue previously Recommendation in respect of th will be submitted to Government on receipt of full i mation from the President

G.O.No.L.4533-9/Ml.100-25-6 dated the 19th December 1925 sanctioning the revised estimate for the Kadur Water Supply project amounting to Rs.81,274/-, the cost being borne by the Government and the Municipal Council in equal shares and stating that separate orders of Government will be passed on the question of how the Municipal Council has to bear its share of contribution.

2. Correspondence ending with letter No.A3-495-26 dated 21st January 1926 from the Deputy Commissioner, Kadur, requesting that a loan of Rs.10,000/- may be sanctioned to the Municipal Council repayable in twenty years at Rs.500 a year with interest accruing thereon to meet the balance of its unadjusted share of contribution for the water supply project referred to and pointing out the ways and means of meeting this liability.

ORDER NO.L. 4908-9/Ml

Dated, Bangalore, the 24th February 1926.

The Kadur Municipality asked for a loan of Rs.15,000/- to finance its share of the cost fully, but the request has been refused. The Municipality was unable to raise the amount by floating a loan.

Owing to the urgency of providing Kadur Town with a sanitary scheme of water supply, the estimate has been put into execution. The Municipality is continually praying for some accommodation to make up its quota of half the cost. The resources of the Municipality are poor and it is doubtful whether it will be able to repay the loan now asked for with interest in 20 instalments.

[Government are however pleased to advance a loan of Rs.7,500/- at 5% interest, the principal and interest being repayable in 20 yearly by equalised payments, discharging loan and interest.]

(2) The extra revenue realizable by levying water tax should be ear-marked for the repayment of the loan.

(4) The Municipality must arrange to meet the maintenance charges of the water supply system out of its other resources.

(5) The balance of its share of capital cost in excess of Rs.7,500/- to be granted as loan will [have to] be met by the Municipality by reduction of its balance in the Treasury and stoppage of optional items of expenditure. (6) [illegible]

For General Secy to Govt.

Correspondence ending with letter No.A3-495-26 dated 21st January 1926 from the Deputy Commissioner, Kadur, requesting that a loan of Rs 10,000/- may be sanctioned to the Municipal Council repayable in twenty years at Rs.500 a year with interest accruing thereon to meet the balance of its unadjusted share of contribution for the water supply project referred to and pointing out the ways and means of meeting this liability.

Order No.L 4908-9/ML100-25-15
dated, Bangalore, the 24th February 1926.

The Kadur Municipality asked for a loan of Rs.16,000/- to finance its share of the cost fully, but the request had to be refused. The Municipality was unable to raise the amount by floating a loan.

Owing to the urgency of providing Kadur Town with a sanitary scheme of water supply, the estimate has been put into execution. The Municipality is continually praying for some accommodation to make up its quota of half the cost. The resources of the Municipality are poor and it is in doubtful whether it will be able to repay the loan now asked for with interest in 20 instalments.

Having regard to all the circumstances of the case,

GOVERNMENT

Government are of opinion that a loan of Rs 7,500 may be sanctioned to the Municipality subject to the following conditions:-

(1) Interest will be payable at 5% per annum.

(2) Principal and interest should be repaid in 20 years by equated payments discharging both principal and interest

(3) The extra revenue realisable by levying water tax should be ear-marked for the repayment of the loan.

(4) The Municipality must arrange to meet the maintenance charges of the water supply system out of its other resources

(5) The balance of its share of capital cost in excess of Rs.7,500/- to be granted as loan will be met by the Municipality by reduction of its balance in the Treasury and stoppage of optional items of expenditure

(6) Resolution of the Municipal Council accepting the above arrangement should be forwarded to Government before the amount is drawn.
